Turn left and head along Heigholme Lane for around  $\frac{3}{4}$  mile to the T junction. Turn left again onto West Street which takes you through Little Leven and eventually back to Leven itself, emerging at the Hare and Hounds pub on the corner. Cross the road and head out on East Street and continue for about 350 yards until you reach a lane on the left running up the side of house No.87

Take the lane and go through the kissing gate into the small paddock. Head diagonally across the paddock and pass through the three gates in quick succession to emerge into a field. Follow the footpath through along the edge of the field until reaching a track at which you turn left and head back to the road.

At the road turn right and walk back to the site.
